TO ARCHITECTS, BUILDERS, CONTRACTORS, &c.

HARTLEY'S PATENT ROUGH PLATE GLASS,

1-8th thick, or 3 lbs. to the foot; 3-16ths, or 3 lbs.; and 1-4th, or 4 lbs. to the foot, for

RIDGE AND FURROW ROOFS, GREENHOUSES, RAILWAY STATIONS, ENGINE SHEDS, MILLS, MARKET HALLS, AND PUBLIC BUILDINGS GENERALLY.

It being universally admitted that Glass in Roofs of a permanent character should not be less than one-eighth of an inch thick, weighing two pounds to the foot, Messrs. JAMES HARTLEY and CO. have directed their attention to the manufacture of a description of

ROUGH PLATE GLASS THAT COMBINES SIZE AND STRENGTH WITH ECONOMY OF COST.

The PATENT ROUGH PLATE is manufactured in sizes expressly for Ridge and Furrow Roofs, giving a span of from 4 to 10 feet, at a price not exceeding weight for weight that of common Crown Glass. Not being transparent, blinds are unnecessary, and when used in Greenhouses no overshading occurs; the HORTRANSPARENCY and strength render it eminently suitable for the Glazing of Conservatories and Roofs of all kinds; also Factories, Workshops, &c., for which purposes it is supplied in squares of all sizes, from 2 to 4 feet each way, upwards.

For further information apply to Messrs. JAMES HARTLEY and CO., West Sheet Works, Sunderland.

N.B.—The Patent Rough Plate is supplied at a much lower cost than the common Rough Plate.—May 1, 1852.

GLASS FOR CHURCHES, CHAPELS, SCHOOLS, &c.

HARTLEY'S PATENT QUARRY GLASS,

Of three thicknesses, in long lengths; an economical substitute for lead lights. The attention of Architects, Builders, and others is particularly requested to this beautiful article; samples of which may be seen at

JOSEPH CHATER AND SON'S, ST. DUNSTAN'S-HILL, TOWER-STREET, LONDON.

NEW PATENT SHEET GLASS, sold in cases, containing 10 sheets, 40 inches long by 20 inches wide—800 feet, at 8l. 8s. per case, net cash. Especial attention is directed to the size, 40 by 20 inches, containing 13 superficial feet, and weighing about 10 oz. to the foot, which is the largest ever made.

SHEET GLASS, 16 ounces to the foot, packed in boxes, containing 100 feet, from 12s. 6d. per box.

FOREIGN SHEET GLASS, of very superior quality, packed in cases of 200 feet, and in sizes varying from 36 by 30 to 44 by 30 inches, at 32s. and 40s. per case.

HARTLEY'S PATENT ROUGH PLATE GLASS, for Conservatories, Public Buildings, Manufactories, Skylights, &c., ¼ inch thick. Packed in boxes of 50 feet each.

4 by 4 and 6 by 4	12s. 6d.
5 by 4 and 6 by 5	12s. 6d.
7 by 5 and 7½ by 5	12s. 6d.
8 by 5 and 10 by 8	12s. 6d.

HARTLEY'S PATENT QUARRY GLASS, Glass Tiles, ¼ of an inch thick, 2l. 12s. per case of 50, case included.

JAMES PHILLIPS and CO. 114, Bishopsgate-street Without, London.

IMPROVED TELEKOUPHONON

FOR SPEAKING-PIPES.

By means of this invention speaking-pipes may be rendered more generally available for Public Buildings, Club Rooms, Noblemen's Mansions, City Warehouses, Offices, &c. It consists of a flexible combination of ivory, wood, or metal, with an indicator attached by means of which in case of two or more speaking-tubes being carried into one room, the mouthpiece from which a whistle proceeds is readily ascertained.

The newly-registered invention also embraces a plan for causing the right-hand figure ornamented to surround the mouthpiece of the tube into a speaking-pipe when the whistle at the further end is required to be sounded.

Manufactured solely by

KEPT and COMPANY, 6, jr., and 6a, Chandos-street, Charing-cross;

And to be had retail of all respectable ironmongers.

CHEAP, LIGHT, AND DURABLE ROOFING.

CROGGON'S PATENT ASPHALTE ROOFING FELT, has been extensively used and pronounced efficient, and particularly applicable for warm climates.

1st. It is a non-conductor.—2nd. It is portable, being packed in rolls, and not liable to damage in carriage.—3rd. It effects a saving of half the timber usually required.—4th. It can be easily applied by any unprofessional person.—5th. From its lightness, weighing only about 40 lbs. to the square of 100 feet, the cost of carriage is small.—6th. Under slate, metal, or tiles, it is a great defensive non-conductor.

LUDOROUS FELT, for sheep walks and for damp floors, under carpets and other coverings, from ONE PENNY per Square Foot.
